

Microsoft Azure
The cloud for modern business.

FormFilla™

FormFilla™ Online Forms for the Service Industry

Why FormFilla™

- ◆ Saves Time and Resources
- ◆ Secure Data
- ◆ Easy to Use
- ◆ Easy Access
- ◆ Bespoke Forms
- ◆ Download as PDF
- ◆ Direct E-Mail
- ◆ Client Specific Configuration
- ◆ Save Incomplete Forms
- ◆ View Forms
- ◆ Unique Log-In
- ◆ Unique User Rights
- ◆ No Paper Forms
- ◆ ERP Integration
- ◆ Viewable on any device

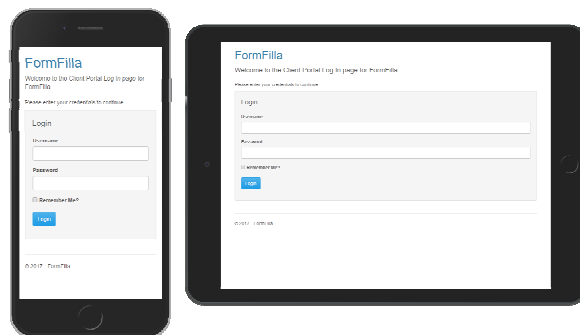

FormFilla™ Uses

- ◆ Check Lists for Services
- ◆ Preventive Maintenance Checks
- ◆ Equipment Checks
- ◆ Operator Training
- ◆ Feedback
- ◆ Internal Ordering

FormFilla™ Software

- ◆ Back-end—MS.NET Core
- ◆ Modern User Interface responsive to any device
- ◆ E-Mail—Sendgrid
- ◆ MS Azure Cloud Hosting
- ◆ Security—Secure: Served over HTTPS, guards against malicious attacks such as, Cross Site Forgery and SQL Injection

- **Log-In at the FormFilla™ website. Each user is assigned a unique Log-In with specific user rights**
- **View and download completed reports as PDF files**

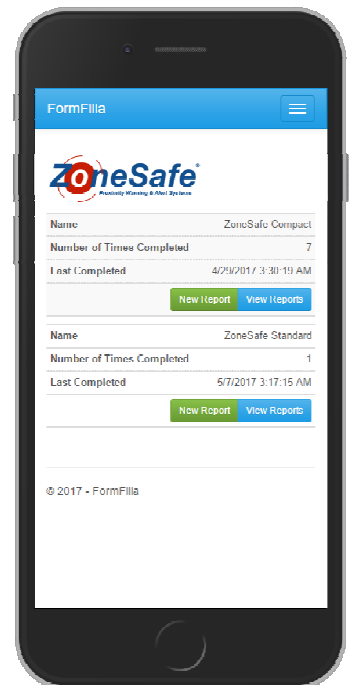

- **FormFilla™ is an easy to use software application designed for the service industry.**

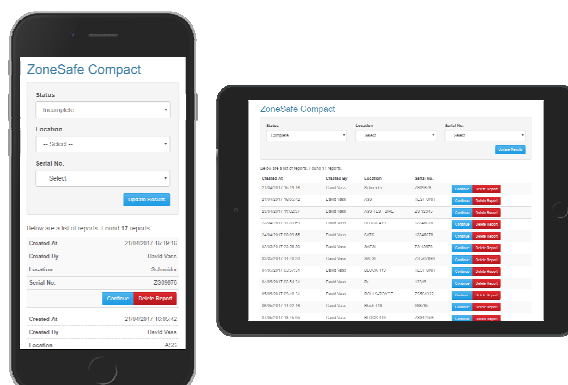

- **FormFillaPM™ is designed to allow technical staff to complete check lists 'on-the-go' via a hand held device such as a tablet or mobile phone. The data is entered directly to the web hosted form by the staff member and can be viewed, or ultimately downloaded by clients or colleagues.**

- **Forms can be completed in stages by different staff.**

- **Access to functionality is dependant on an individual's specific user rights**

- **Allows operators and staff flexibility to be able to open an incomplete form and continue working**
- **Completed forms can be automatically E-Mailed to predetermined recipients such as office administrators or clients**
